

TRILATERAL DIALOGUE: GERMANY, CZECH REPUBLIC, POLAND

FUTURE OF MOBILITY

2. November 2023, 11:00-16:00
Hochschule Zittau/Görlitz

ON THE TOPIC

Freedom of movement and mobility are essential for the successful functioning of the border triangle. Every day, people commute between the three countries, either to work or to school. It is essential to address the current challenges of the regional transport infrastructure. However, the mobility in the region can only be efficient if it is addressed integrally in all three countries.

It is therefore of particular importance that the region, which still has room for development, finds a common approach and is prepared for the future in terms of infrastructure and mobility.

PARTICIPATION

Venue: Hochschule Zittau/Görlitz, Z IV,
Theodor-Körner-Allee 8, 02763 Zittau
